OVERVIEW

Built to last, Gallery Specialty's Fix-it Strike for Deadbolts is available for quick shipping.

Made from high-quality, 1/16" Type 304 stainless steel with a durable 32D finish, these strikes are designed for clean installation, reliable performance, and long-term use in residential and commercial applications.

Available in multiple offset options, offset up, or down and over 1/8" to help installers quickly and professionally solve alignment challenges.

- No more filing strikes due to misalignment of door and frame
- Finished on both sides, so it is non-handed
